Dimension	467[W] x 286[L] x 68[H] mm & 467[W] x 286[W] x 148[H] mm	Warranty	2 lata

Qbrick System ONE Drawer 2 Plus Toolbox is a very spacious, modular toolbox. Equipped with two drawers, pulled out on metal guides. A convenient button provides easy access to their contents. The low and high drawers are equipped with adjustable ABS partitions. The low drawer has 3 long and 8 short partitions, the high drawer has 2 long partitions.

Polyamide side connectors allow for easy connection with other modules from the ONE line. The Vario cover also allows for connecting the drawer to the PRO system. Convenient side handles in the body ensure convenient carrying of the module. Tool identification is provided by a place for a label secured with a polycarbonate cover.

Bodies adapted for the installation of M8 threaded inserts allow for any personalization of the system to the user's needs.

Additionally, there are places on the back of the body that allow you to hang the module on the wall.

The maximum load capacity in the Qbrick System ONE Drawer 2 Plus Toolbox 2.0 is 16 kg for the high drawer and 8 kg for the low one.

In order to protect the drawer from theft of its contents, a steel bolt has been used, adapted to the use of a padlock.

Qbrick System ONE Drawer is not compatible with the ONE Transport Platform 1.0. The ONE Transport Platform 2.0 Allterrain and Workshop are dedicated to them.

**\*Note!** The QS ONE BOX 2.0 and QS ONE BOX 2.0 Plus boxes cannot be used as a base for attaching the QS ONE Drawer 2, QS ONE Drawer 2 Plus and QS ONE Drawer 3 boxes
