Product specification

Manufacturer	QBRICK SYSTEM	Unit	pcs
Colour	black	Dimension	585 [L] x 385 [W] x 320 [H] mm
Warranty	2 lata		

ONE 450 is a toolbox with a very large capacity of 52 l. Thanks to this, it can accommodate large power tools and hand tools. Two adjustable partitions allow you to maintain order inside the box. Each box is equipped with a flexible seal that provides full protection against dust and water ingress (IP66). As standard, it is equipped with two adjustable partitions ensuring excellent organization of the space inside the box.

The Basic cover version is equipped with a functional cutting slot with a measuring tape as standard. The reinforced construction of the cover and body guarantees a large load capacity (50 kg) and withstands pressure of up to 120 kg, giving the possibility of creating comfortable work platforms.

Version 2.0 of the ONE line products is a new generation of toolboxes and organizers with a reinforced structure. Additional adaptation of the bodies for the installation of M8 threaded inserts gives the possibility of any personalization of the system to the user's needs.
